Year 6 Homework Bingo – Autumn 2 -A

*Alongside your **daily reading**, **spelling** and **times tables (Times Table Rock Stars)** practice, we challenge you to also complete the below activities over the half term. For creative or practical tasks, please share photos of your work (if you can't physically bring the items into school).*

1. Viking Shields

Using your previous knowledge, design, make and evaluate a Viking shield using recycled materials.

You can use cardboard, foil, glue and coloured paper.

2. What did the Vikings eat?

Last term, you researched a Viking menu, but can you find a recipe for bread that the Vikings would have made and have a go at making it yourself? Take photos of each stage.

Viking Bread Recipe | Kids in the Kitchen (raisinglifelonglearners.com)

3. Model Making:

We will be studying the Earth in more detail in geography.

To support your learning, visit your local library and use a book to create a diagram of a volcano and label it. Then explain one key feature of a volcano.

4. Shake Table Experiment:

Build a simple shake table and test how different structures withstand simulated earthquakes.

5. In science, we will be looking at the circulatory system.

Label the heart, lungs and major blood vessels, then use a colour code: red for arteries, blue for veins.

6. Make your body move!

Pulse Investigation: Measure your pulse rates before and after exercise and record the results in a table and say which is higher.

7. Creative Writing: Blood Journey Story:

Write a short story from the perspective of a red blood cell travelling through the heart and lungs.

8. Heart of gold!

DIY Heart Model: Create a simple model of the heart, labelling the four chambers after your first couple of science lessons.

9. In art, we are learning about famous street artists such as Banksy.

Stencil Project: Use a stencil to trace a simple shape using 2 different colours.

10. Settle the debate! Art or vandalism?

Is graffiti art, or is it vandalism? List 3 bullet points for each side of this debate.

Bonus Tasks:

🥗 Healthy Living

Meal Plan Challenge: Create a weekly meal plan that includes foods from all major food groups.

Food Diary: Keep a food diary for three days and reflect on nutritional balance.

Cultural Diets Research: Research and present on diets from different cultures (e.g., Mediterranean, Japanese).

Year 6 Homework Bingo – Autumn 2 -B

Alongside your **daily reading**, **spelling** and **times tables (Times Table Rock Stars)** practice, we challenge you to also complete the below activities over the half term. For creative or practical tasks, please share photos of your work (if you can't physically bring the items into school).

1. Viking Shields

Using your previous knowledge, design, make and evaluate a Viking shield using recycled materials.

Evaluate it using the following prompts: strength, appearance, historical accuracy

2. What did the Vikings eat?

Last term, you researched a Viking menu, but can you find a recipe for bread that the Vikings would have made and have a go at making it yourself? How does it compare to modern bread?

Viking Bread Recipe | Kids in the Kitchen (raisinglifelonglearners.com)

3. Model Making:

We will be studying the Earth in more detail in geography. To support your learning, visit your local library and check out a book to help you create a 3D model of a volcano or tectonic plate boundaries using clay, cardboard, or recycled materials.

4. Shake Table Experiment:

Build 2-3 simple structures on a shake table and test how different structures withstand simulated earthquakes.

5. In science, we will be looking at the circulatory system.

Draw and label the complete circulatory system including heart chambers, then add arrows to show blood flow direction.

6. Make your body move!

Pulse Investigation: Measure your pulse rates before and after exercise and record the results in a bar chart.

7. Creative Writing: Blood Journey Story:

Write a short story from the perspective of a red blood cell travelling through the body.

8. Heart of gold!

DIY Heart Model: Create a working heart pump model using balloons, tubing and coloured water after your first couple of science lessons.

9. In art, we are learning about famous street artists such as Banksy.

Stencil Project: Create a stencil that has a clear message and use it to make a piece of street-art-inspired work.

10. Settle the debate! Art or vandalism?

Pick a side and write a paragraph using persuasive language that we can use to settle the debate: Is graffiti art, or is it vandalism?

Bonus Tasks:

Healthy Living

Meal Plan Challenge: Create a weekly meal plan that includes foods from all major food groups.

Food Diary: Keep a food diary for three days and reflect on nutritional balance.

Cultural Diets Research: Research and present on diets from different cultures (e.g., Mediterranean, Japanese).

Year 6 Homework Bingo – Autumn 2 -C

Alongside your **daily reading**, **spelling** and **times tables (Times Table Rock Stars)** practice, we challenge you to also complete the below activities over the half term. For creative or practical tasks, please share photos of your work (if you can't physically bring the items into school).

1. Viking Shields

Using your previous knowledge, design, make and evaluate a Viking shield using recycled materials.

Write a detailed evaluation that compares your shield using historical evidence.

2. What did the Vikings eat?

Last term, you researched a Viking menu, but can you find a recipe for bread that the Vikings would have made and have a go at making it yourself? Research why the Vikings used the specific ingredients listed.

3. Model Making:

We will be studying the Earth in more detail in geography. To support your learning, visit your local library and check out a book to help. you create an accurate 3D model of a volcano that includes a cross-section view.

4. Shake Table Experiment:

Build a simple shake table. Design and test multiple structures, changing one variable then record detailed observations and

5. In science, we will be looking at the circulatory system.

Body Map Activity: Can you draw or label the circulatory system on a life-size outline of a human body?

6. Make your body move!

Pulse Investigation: Measure your pulse rates before and after exercise and record the results in a detailed graph.

7. Creative Writing: Blood Journey Story:

Write a detailed, creative narrative demonstrating deep understanding of circulation, using a red blood cell as your

8. Heart of gold!

DIY Heart Model: Create a detailed working heart pump model using balloons and tubing after your first couple of science lessons.

9. In art, we are learning about famous street artists such as Banksy.

Stencil Project: Create a stencil and use it to make a piece of street-art-inspired work, using multiple pieces or layers.

10. Settle the debate! Art or vandalism?

Pick a side and write a fully developed persuasive piece of writing that we can use to settle the debate: Is graffiti art, or is it vandalism?

Bonus Tasks:

🥗 Healthy Living

Meal Plan Challenge: Create a weekly meal plan that includes foods from all major food groups.

Food Diary: Keep a food diary for three days and reflect on nutritional balance.

Cultural Diets Research: Research and present on diets from different cultures (e.g., Mediterranean, Japanese).
