

We at **Southend Educational Psychology Service** would like to invite you to join us for a daily webinar session looking at all aspects of education, learning, wellbeing and psychology.

These sessions will be presented by Educational Psychologists and professionals working in education from across the UK. This collaborative project is for all professionals connected with education, as well as parents and carers. Plus, we hope to develop sessions for young people too.

For further information, to register a place on a webinar and to suggest topics for future sessions please go to our website
